Tashkent, Uzbekistan

Summary

Software Engineer focused on building fast, clean, and maintainable backend systems. I care about structure, clarity, and performance — not trends or buzzwords.

My work is driven by logic, not guesswork. I value simplicity over overengineering, and reliability over temporary hacks. Open to new opportunities where I can contribute as a dedicated .NET developer and continue growing in a collaborative, high-impact environment.

Experience

TELECOM SOFT   *Tashkent, Uzbekistan*
Software Engineer   **April 2024 – Present**

MDevs Group   *Fergana Region, Uzbekistan*
Founder   **December 2021 – Present**

Najot Ta'lim   *Fergana Region, Uzbekistan*
.NET Teacher   **September 2023 – March 2024**

EPAM Systems   *Fergana Region, Uzbekistan*
.NET Intern   **August 2022 – December 2022**

Education

Fergana State University   *Fergana, Uzbekistan*
Bachelor of Applied Science in Applied Mathematics and Informatics   **2019 – 2023**
